This is Us...

Kelly Parker Smith is the Founder and Creative Director of Hello World Paper Co. She handles all custom laser projects, illustrations, and continually focuses on manufacturing partnership outreach. Chrissy, the Office Manager, is the muscle behind the brand and handles all shop customer service and rubber stamp manufacturing.

We are a two woman show and we can guarantee that you will be in good hands when you partner with us. We take great pride in our work and strive for 100% customer satisfaction in every project. We understand what it's like to run a product-based business because we have one too! We know what customers want and we will work with you to bring your products to your unique customer base.

We work out of our studio in Illinois, with Kelly's adorable cat, Katniss, always by our side. Kelly loves to draw, watch movies with her three boys, and cheer on the St. Louis Cardinals. Her husband is her #1 supporter. Chrissy snuggles on her cat, Gabe, and cheers on her son's soccer team and her daughter's softball team in her free time. We are two moms with big hearts and a love of great design. We ooooooh and aahhhh over every design that comes our way and cheer for you when your products sell! We are your silent partner as well as your loudest cheerleader! We will always encourage and support you to make your shop successful!

Rubber Stamps

Our rubber stamps are engraved at 1200 dpi and we use the highest quality materials. Our laser rubber is natural environmentally friendly and our self-inking stamp cartridges are made of 65% post-consumer recycled plastic and are manufactured in a facility focused on climate neutrality. Even the heat generated in making the cartridges is used to heat the building. Cool right?

Branded drop shipping is available for all stamps and there are NO minimums.
